Group Training Classes

Puppy Socialization & Manners

Did you know puppies learn more about the world around them between the ages of 3 to 16 weeks than any other time in their lives? This is known as the Critical Socialization & Learning Window. The window begins to close after 12 weeks of age. Once they reach maturity, it is much more difficult to socialize them to new experiences or fix problems such as fear and aggression that may arise from socialization gaps or bad first learning experiences during their puppy hood. So much to experience and so little time! This class will thoroughly educate you on everything your puppy needs to be exposed to and the correct way to achieve that exposure through positive

and gentle methods. You will also learn how to develop a beginning training foundation built upon positive reinforcement methods. You will learn about impulse control and how to teach the dog to “say please” for what she wants, housetraining techniques, how to build a proper chew toy habit, control biting and mouthing, and much more.

Requirements: Pups must be between 8 and 16 weeks of age by the first day of class. Pups must have been recently wormed and up to date on their vaccinations relevant for their age. If your puppy is sick or your trainer sees signs of illness your pup will not be allowed to attend class.

Canine Good Manners - Group Classes

Life long behavioral health is just as important as life long physical health for your dog’s well being. In fact, the two are closely linked. Providing structure and legal outlets for your dog’s mind and body make for a confident, well adjusted member of your family.

During this course you will understand how dogs learn and communicate. You will learn how to most efficiently and humanely bridge that communication, using clickers and rewards. You will learn how to train your dog utilizing everything in your dog’s environment which they find rewarding. You will learn how to troubleshoot why something isn’t working and how to adjust your training methods accordingly. You will learn the true meaning of “Dogs do what works”.

You will also discover how fun and exciting training your dog can be, once you have the right tools and knowledge. Watch as your dog’s “learning muscle” gets stronger everyday and the bond between you gets stronger as well. Gone are the days of tedious hour long drills. This is dog training structured for real life, day to day living.

Requirements: Dogs of any age are eligible, except for dogs under 5 months. Dogs must be current on all vaccination. Female dogs in heat cannot participate.
